Barrington Middle School Building Project

For more information, visit: www.bmsproject.com

- The proposed project includes the design and construction of a new 142,500 SF one-story building with a three-story classroom wing on the site of the existing Barrington Middle School.
- The new Barrington Middle School will provide a 21st century learning environment that will support the rigorous educational program for which the Barrington Public Schools are known.
- The new facility includes flexible classroom spaces for project-based, collaborative learning and is designed to enhance interdisciplinary and STEAM (Science, Technology, Engineering, Arts, and Math) teaching and learning.
- The new building will be energy efficient and will have upgraded safety and security features.
- The total project cost will not exceed $68.4 million.
- State reimbursement for the project will be a minimum 35% of eligible project costs, a minimum of $16 million.
- The estimated property tax rate impact of a 25-year, $68.4 million bond, at a conservative rate of 3.4%, net of State reimbursement, will be $1.12 per $1,000 assessed value.
