

ADDENDUM NUMBER 2

Request for Bid: Veteran's Memorial Park Trails Improvements Project – Blue Trail Raised Boardwalk

Date this Addendum Issued: Friday, May 22, 2015

From: Philip Hervey, Town Planner, Barrington, RI

283 County Road, Barrington, RI

(401) 247-1900 x347 (office)

phervey@barrington.ri.gov (e-mail)

Posted 5/22/15 on Town website: <http://www.barrington.ri.gov/topics/govbids.php>

GENERAL INSTRUCTIONS:

- This Addendum constitutes an integral part of the above-referenced Request for Bid and shall be read in conjunction with the Request.
 - Where inconsistent with the original Request, or any subsequent Addendum, this Addendum shall govern.
 - It is the responsibility of all Proposers to conform to this Addendum.
 - Unless specifically changed herein, all other requirements of the Request shall remain in full force and effect and can only be modified if in writing.
-

PURPOSE OF THIS ADDENDUM:

- **To respond to questions received by the Town in response to this Request for Bid.**

1. What prompted the change from a mandatory to non-mandatory pre-bid meeting?

Response: The Town determined that attendance was not required for bidding purposes, as there were few technical questions asked at the meeting.

2. Is there now a plan holder list available, now that the level of competition has become unknown?

Response: The plan holder list, based on who has been provided plans by the Town via e-mail, is **attached** to this Addendum.

3. Is there a budget for this project? If so, can you please let us know what that is? Your website indicates that the town received a \$100K RIDEM grant. Is that the grant that is being used for this project?

Response: This is the grant; however, the grant is for this project as well as others within Veterans Park, including design and permitting and other significant trail improvements. We do not have a specific budget for the boardwalk.

4. Are there any soil borings or investigations in the boardwalk area?

Response: No. Bidders are required to review existing site conditions to become familiar with the general local and site conditions to perform the specified work. Non-mechanical soil probing by prospective bidders will be allowed by the Town, if necessary.

5. Does the silt barrier need to be on both sides or just the downhill side?

Response: Yes. Silt barrier shall be installed on both sides the new path.

6. I have not seen load tests required for projects like this. The specs mention they may be optional. Are they going to be required or is torque testing sufficient?

Response: Torque testing should be utilized to ensure piles are installed to minimum installation torque in accordance with manufacturer's specifications (see section 02766 of the project specifications). Additional testing will only be required if requested by the owner during construction.

7. What is the "anticipated" start date for this project?

Response: We anticipate awarding the bid at the June 1, 2015 Town Council meeting, with the goal of construction starting prior to June 15, 2015.

8. Is this a prevailing wage or Davis Bacon Act project? If so please provide current labor rates.

Response: The project is subject to the prevailing wage rates (see **attached** decision #RI150001). The Davis Bacon form will be required for submittal, as federal highway funds are involved.

9. Will the contractor receive tax exemption for the purchase of materials for this project?

Response: The Town's Exemption Certificate is **attached**.

10. Are there any liquidated damages on this project?

Response: No.

11. Please confirm the completion date for this project.

Response: July 31, 2015

12. Are there specific Qualification Form(s) for this bid? If not, what should be included with the bid as acceptable documentation for this Project – Qualification Based Selection Process?

Response: Bidders shall provide a one- to two-page letter signed by an authorized representative that includes the following minimum information:

A. Years in business

B. History of successful completion of similar projects and quality of workmanship.

C. References (provide a list of all pertinent projects undertaken in the past five years and name and phone number of contact person);

D. Insurance (as outlined in the Instructions to Bidders)

13. What, if any, is the retainage on this project?

Response: 10 percent

14. In Detail 3 "NEW BLUE TRAIL CONECTOR SEGMENT" on Sheet 2 from the plans it appears that the passable width between the straw wattles shown is 3'. At 3' wide, the connector segment will not provide adequate access for construction equipment to the boardwalk location; will an interior dimension of 7' between straw wattles be acceptable?

Response: Temporary Limit of disturbance at specified raised boardwalk is 10' wide as noted on detail 4, sheet 2. Along new forest floor Blue Trail Connector Segments, temporary enlargement of limit of disturbance during construction will be allowed following approval of owner to provide appropriate temporary construction equipment access. However, sedimentation control measures shall be adjusted to adjusted limits of disturbance. Construction access should be from Bosworth Street. Temporary Limit of disturbance shall be reduced back to 5' as illustrated on Detail 3, Sheet 2, as soon as practical, immediately following access by appropriate equipment. The 3' wide path shall be the permanent limit of disturbance.

15. Will helical piers manufactured by MPS CIVIL PRODUCTS (MacLean Power Systems) be considered and approved equal to those manufactured by Chance Civil Construction?

Response: "Or Equal" Substitutions will be considered following award of contract, if selected contractor submits information and documentation that the substitution material conforms to the project specifications.

16. Will the Town of Barrington provide an off-site dumping location for the brush/fallen trees to be removed from the site?

Response: There will be minimal clearing required for the project. Any brush / fallen trees are to remain on-site.

17. Will clearing of vegetation within the proposed New Blue Trail Connector Segments be required of the selected contractor?

Response: Yes. Clearing is limited to removal of understory vegetation, including some sapplings, vines, debris, etc. Clearing will not include removal of large live trees.

END OF THIS ADDENDUM

construction consisting of single family homes and apartments
up to and including 4 stories) HEAVY, HIGHWAY AND MARINE
CONSTRUCTION PROJECTS

Note: Executive Order (EO) 13658 establishes an hourly minimum
wage of \$10.10 for 2015 that applies to all contracts subject
to the Davis-Bacon Act for which the solicitation is issued on
or after January 1, 2015. If this contract is covered by the
EO, the contractor must pay all workers in any classification
listed on this wage determination at least \$10.10 (or the
applicable wage rate listed on this wage determination, if it

is higher) for all hours spent performing on the contract. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

GROUP 5: Four- and five-axle equipment

GROUP 6: Low-bed or boom trailer.

GROUP 7: Trailers when used on a double hook up (pulling 2 trailers)

GROUP 8: Special earth-moving equipment, under 35 tons

GROUP 9: Special earth-moving equipment, 35 tons or over

GROUP 10: Tractor trailer

WELDERS - Receive rate prescribed for craft performing

operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example:
PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all

rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial

contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage

payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

STATE OF RHODE ISLAND
DEPARTMENT OF ADMINISTRATION — DIVISION OF TAXATION
SALES AND USE TAX

EXEMPTION CERTIFICATE

I hereby certify that TOWN OF BARRINGTON
283 County Road, Barrington, R.I. 02806
is exempt from the Rhode Island Sales or Use Tax pursuant to the Rhode Island
Sales and Use Tax Act. This governmental agency is specifically exempted under
Section 44-18-30I.

"There are exempted from the taxes imposed by this chapter the
following gross receipts:

"* * *

"I. State and Political Subdivisions. From the sale to, and
from the storage, use or other consumption by this State, any
city, town, district, or other political subdivision of this
State. Every redevelopment agency created pursuant to Chapter
31 of Title 45 shall be deemed to be a subdivision of the
municipality where it is located."

Tangible personal property purchased from: ANY VENDOR

will be used by said agency.

Governmental agencies are not issued exemption certificate numbers, because
they are not subject to the qualification stipulation established by the
Division of Taxation for other exempt organizations and institutions.

This blanket exemption certificate under the Rhode Island Sales and Use Tax
Act shall apply to all future purchases from the above-mentioned retailer.

Authorized R. I. Tax Division Signature

Alfred J. Menard

Title: Principal Revenue Agent

Dated: April 19, 1991
